SKODA CHALLENGE – 8 km circuit

70% water.....discover it

Twenty years ago a little green shop appeared on Victoria Road ... it became a kayaking & bushwalking icon. Twenty years later it was transformed into a little blue shop called Blue Earth Canoe & Camping. The little blue shop had over 50 boats squeezed into its tiny confines - everything from recreational kayaks and sit on tops, to exotic sea kayaks and racing kayaks - plus all the best gear, accessories and gadgets to go with them. In 2009 they now have over 70 boats on display. The Blue Earth team has many years of paddling experience behind them and all actively participating in the sport at various levels.

Blue Earth and their staff are keen to see the sport of paddling develop further in Australia and hence their keenness to become involved in the Fenn Series as a sponsor. With that in mind they have elected to support a number of our newer paddlers by providing a number of most improved prize packs specifically for the short course paddlers. These prizes will be for both the male and female paddlers in the Under 20, open and plastic categories of the Skoda Challenge. The prize packs and series most improved will be determined on overall positions and improved times during the series as determined by race organisers.
