**COOPERS ANNOUNCED AS NEW SERIES SPONSOR
14th September, 2009**

It is with great pleasure that Long Reef SLSC and Oceanpaddler announce that Coopers have come on board as a series sponsor.

Coopers are one of Australia's most well known and loved beers with a wide range of ales, stouts and lagers to choose from. Their range is brewed by a method of top fermentation, originating in the Middle Ages. Coopers use only natural ingredients including malt, hops, sugar, water and special yeast strains that are over 90 years old. Coopers are proud in that they do not use any preservatives or chemicals in their range.

Coopers have selected a variety of beers that will be given to competitors competing in each race at the post race presentation held at Long Reef SLSC. Such beers will include:

- Premium Light,
- Mild Ale,
- Palm Ale and
- Coopers 62 Pilsner which is new to the market.

So now the series is complete. Great racing followed by a chilled selection of Coopers finest beers. What more could anybody ask for!

Coopers Premium Light

Coopers Premium Light is brewed using malted barley and no sugar. Coopers has used traditional lager brewing techniques to produce a full-flavoured light beer. The light has a fresh aroma with clean floral hop notes, excellent head and colour presentation.

Alc/Vol 2.9%

Coopers Mild Ale

This ale is the product of brewing with a selection of barley and wheat malt, and with no added sugar. This traditional brewing approach provides the smooth malt character which is balanced by a triple hopping of the brew with Pride of Ringwood and Saaz hops. The brew has fermented similarly to its stablemates Pale and Sparkling Ale, with the customary secondary fermentation in the bottle and can.

Alc/Vol 3.5%

Original Pale Ale

Guaranteed to turn heads, this is the beer that inspired a new generation of ale drinkers. With its fruity character, and robust flavour, Coopers Pale Ale is perfect for every occasion. Naturally fermented in the 'Burton-on-Trent' style, a secondary fermentation creates the trademark sediment that gives 'Pale' its fine cloudy appearance. This cloudy residue can be stirred through the beer by tipping or rolling the bottle before drinking. Pale Ale has no additives or preservatives. 4.5% Alc/Vol

Coopers 62

Coopers 62 is based on a classic Bohemian-style Pilsner, with a straw-to-golden colour and dense, rich foam. Hopped, using a combination of traditional Saaz and Hersbrucker varieties, it has a medium-bodied palate and is generously fermented to produce a well-attenuated lager.

The hop flavours are perfectly balanced with an all-malt recipe of Australian-grown malted barley to finish with a residual sweetness, typical of this style of beer. The end result is a crisp, full-flavoured taste with a smooth, satisfying finish, brewed just for you. 5.0% Alc./Vol
